### PROMISE

We're very concerned at the way this world is changing and we have experienced that if people can just have the knowledge of God and the understanding of what God has for us in this life, then our lives can be changed for the better.

This is why we've started this church, with the emphasis on teaching the facts of the Bible, to enable everyone to make a judgement on God based on facts and experiences, rather than the little information we have heard or someone has told us.

All of us have, and are experiencing the presence of God in our lives and it shows us how God's word is alive in us and changes all aspects of our lives, for the best, IF we work with Him!

You will find all the promises that God gives to his believers who follow Him.

Come and find out for yourself, we know you will learn some amazing things about God, the world and even ourselves.
